Acknowledgements

MS. GREEN: Mr. Speaker, I rise today to acknowledge the achievement of my constituent Bes'ha Blondin as a team member of the Arctic Indigenous Wellness Project, which was awarded this year's Arctic Inspiration Prize.

The project won the \$1 million prize for their plan to combine Indigenous cultural education with traditional therapy to improve the mental health of at-risk Inuit, First Nation and Métis peoples through collaborative, culture-specific, community supported programs.

Please join me in offering congratulations to Bes'ha Blondin for receiving this award.
